## Vestergaard Company Market leader within GSE

Vestergaard Company is a significant supplier of Ground Support Equipment (GSE) for aircraft, supplying the market world-wide, primarily with:

- De-icing systems
- Vacuum toilet service systems
- Water service systems
- Aircraft Washer systems

The basic philosophy behind the development, production, and marketing of our products is a strong focus on:

- Reliability in operation and servicing
- Unsurpassed unit life time and low maintenance costs
- Mobile and swift operations
- Product functionality and efficiency second to none
- Environmentally amicable solutions
- Long-term cost-effectiveness
- First-rate customer service

All Vestergaard equipment meets international product and safety standards as well as regulatory requirements. Our highly skilled engineering staff

employs optimised computer systems throughout all design and manufacturing processes.

Our management principles include comprehensive internal training programmes and profit-sharing, aimed at promoting creativity and improving work processes. Our manufacturing processes minimize the consumption of raw materials and the environmental impact, and we constantly strive to reduce energy consumption and other resources in the life cycle of our products.

Vestergaard Company is strongly committed to after-sales service:

- Our standard-setting documentation is detailed, yet user-friendly
- Our delivery concept includes an extensive training programme for all our systems
- We keep a large stock of spare parts, normally deliverable on a day-to-day basis
- We offer technical support and advice, and are pleased to co-operate directly with our customers' technicians
