

**DAN DRYER warm-air hand dryers** are top quality dryers, boasting optimum hygiene and efficiency.

Low noise level, low running costs and maximum reliability are only a few of the features characterising DAN DRYER hand dryers! Types AA pushbutton and AE Electronic both come with a **5-year guarantee**, even covering cases of vandalism!

Standard is the classic, white aluminium housing, but with the launching of the new **DAN DRYER STAINLESS DESIGN** series, the AE dryer is now also available with a beautifully arched housing in brushed stainless steel.

The **STAINLESS DESIGN** line comprises:

- three touch-free hand dryer models
- electronic soap dispenser
- 7 l sanitary bin & 30 l waste bin
- paper towel dispenser
- toilet roll holder for 4 standard rolls

The series thus offers a unique possibility to combine the demand for reliability and user-friendliness with the desire to equip lavatories with ultramodern top quality inventory in a beautiful and functional design.

The **DAN DRYER baby changing table** is the ideal solution for hygienic nappy changing, offering guests unique service and absolute safety!

Constructed in aluminium and stainless steel, this unit boasts an impressive carrying capacity of up to 400 kg. The design is easy to clean, and the table gently folds up against the wall when not in use.

DAN DRYER is thus the obvious choice of full-line supplier of lavatory inventory for airports where thousands of quality-conscious guests pass round the clock...
